Entellect Signs Landmark Agreement with Brisbane Catholic Education

Brisbane Catholic Education (BCE) has executed an agreement for the purchase of Entellect Solutions Limited's (ASX:ESN) *eMinerva Enterprise* student management solution.

The decision to proceed with purchase and implementation of the software follows acceptance by BCE of Entellect's component of a successful proof of concept project to demonstrate integration with a BCE nominated Enterprise Resource Planning package.

The value of the licence itself is close to \$2 million with half of this amount payable within 20 business days. The licence also provides for total support fees of over \$1 million to be paid by BCE over a minimum five year period commencing from the date of initial deployment.

The licence agreement also specifies that Entellect supply customisation and implementation services at agreed daily rates. BCE have indicated considerable requirements for these services and planning has commenced with BCE concerning the scope, timing and earliest delivery of these services. The total value of services to be provided over the next 18 months is expected to be significant.

BCE will use *eMinerva Enterprise* to administer over 140 schools and 53,000 students making it one of the largest integrated student management solutions in the country and a model for the many other education offices and administrations in Australia.

Entellect Chief Executive, Joe Younane, said that coming on top of the recent acceptance certification of *eMinerva Enterprise* by the Department of Education Tasmania, this latest agreement marks a major breakthrough for Entellect that demonstrates the attractiveness and competitiveness of the Entellect *eMinerva* solution within the education sector in Australia and elsewhere.
