Entellect Solutions appoints Channel Partner in Singapore

Following earlier announcements regarding expansion into international markets, Entellect Solutions is pleased to announce the appointment of The M Word in Singapore as a Singapore based channel partner to assist Entellect with market entry into Singapore and the Asia Pacific region.

The principals behind The M Word have over 20 years experience in building and growing some of the world's most successful digital media brands throughout the Asia Pacific region and have an unparalleled track record in launching new products and building new markets. They are respected leaders with a reputation in business development that spans multiple sectors including technology and publishing

The partnership agreement was signed on 23 September 2009 and initial product training in Sydney for the principals of The M Word is planned for the coming weeks.

The M Word Managing Partner Mr. Steven Hopkinson commented that he was very excited about the prospect of Entellect's solutions in the Asian markets and felt confident the Entellect product suite was suitably well positioned for growth within Asia. "With not only an appetite for leading edge education solutions but also innovative technology products, Singapore and Asia at large is well poised and ready for the Entellect product range", commented Hopkinson.

Mr. Joe Younane, CEO of Entellect, said that this appointment in the Asian market was just the first step in Entellect's plan to further capitalise on both the successful development of its enterprise education products and its intelligent and interactive e-Book solutions by expanding its presence into well established and profitable international markets.

Entellect Solutions Ltd delivers valuable and innovative software-based offerings to meet the expectations and needs of all stakeholders in the education and related markets. ESN currently has 4 mainstream products for client use –

- *eMinerva- a world class Enterprise Student Management System that enables K-12 educators to manage and report against their students' activities.*
- *vSTARS - a leading edge system which allows all stakeholders to participate in planning, recording and reporting on student academic achievements. It has been designed by Australian educators to encourage best practice in the classroom and foster quality communication between parents, students and educators.*
- *vPublisher- an e-book solution for educators, printers and publishers that allows all groups to quickly and cost effectively deliver solutions to their clients. vPublisher holds unique IP that enables rich content to be embedded into an interactive e-Book.*
- *eMinerva 4.6 - A single-site Student Management System that enables educators to have a single point of information for student activity in colleges, higher education providers, corporates and vocational training organizations. The solution is compliant with Australian reporting requirements for local and international students.*
